

Categories game sheet

PLAYER

Teamzy

One sheet per player. Each round, write down the letter drawn and fill one box per category with a word starting with that letter. When someone shouts "Stop!", everyone puts their pencil down and the answers are compared.

Total										

2 points for an answer nobody else has, 1 point for a shared answer (1 for each of those who have it), 0 for an empty box or a refused word. A disputed word is settled by a vote of the table. After the rounds agreed on, the highest total wins; in case of a tie, one more round.
