

That's Pretty Clever score sheet

Teamzy

BOXES CROSSED	1	2	3	4	5	6	7	8	9	10	11
Blue	1	2	4	7	11	16	22	29	37	46	56
Green	1	3	6	10	15	21	28	36	45	55	66

Yellow: each full column scores the number under it, 10, 14, 16 and 20 from left to right.

Orange and purple: the sum of the numbers written in the area.

Foxes: each fox is worth your lowest area (nothing if one area is at 0).

At the end, write down the points of each area, add them up, then add your foxes: their number times your lowest area.

GAME 1

PLAYERS				
Yellow				
Blue				
Green				
Orange				
Purple				
Areas total				
Foxes number x lowest area				
Total				

GAME 2

PLAYERS				
Yellow				
Blue				
Green				
Orange				
Purple				
Areas total				
Foxes number x lowest area

GAME 3

PLAYERS				
Yellow				
Blue				
Green				
Orange				
Purple				
Areas total				
Foxes number x lowest area				
Total				

GAME 4

PLAYERS				
Yellow				
Blue				
Green				
Orange				
Purple				
Areas total				
Foxes number x lowest area				
Total				

End of the game: 4 rounds with 4 players, 5 rounds with 3, 6 rounds with 1 or 2. The highest total wins.

Tie: the player with the best area wins; if still tied, the victory is shared.
